REASON FOR TREE REMOVAL:

APPLICATION FOR ADMINISTRATIVE TREE REMOVAL

This application is for the removal of three or less trees not combined with any development permit that requires discretionary approval. Removal of over three trees requires a discretionary permit. If it is believed that the tree(s) is/are a hazard, an ISA Tree Hazard Evaluation Form shall be required with the submittal of the completed application.

Based on the site plan, photos, report prepared by a County-approved tree consultant, and other information submitted by the applicant, the Monterey County RMA-Planning Department shall make a determination pertaining to the removal of trees.

All tree removal permits approved by the County are subject to conditions of approval. The approved permit(s) shall not be complete until all conditions are met. A copy of the approved tree removal permit(s) must be posted on each tree proposed to be removed for 10 days prior to removal. A copy of the approved tree removal permit must be retained on-site during removal operations.

Excessive tree pruning resulting in the removal of over one-third of green foliage requires a tree removal permit.

ANY PRIOR TREE REMOVAL PERMITS ON LISTED PARCEL(S)?
